So, what does Pink Floyd and Wu-Tang Clan have to teach you about money?

“Money, it’s a hit. Don’t give me that good, good, good bullsh*t”. This is a line from the Pink Floyd rock ‘n’ roll classic, Money. “Cash rules everything around me, Cream. Get the money. Dollar, dollar bill, y’all”. This is the chorus from the hip hop classic, C.R.E.A.M., by the Wu-Tang Clan. Money *is* always a hit and everything around you *is* ruled by cash.

LoanZees wants to be your one stop shop for all your financial needs. People like you and I will always need a little help every now and then. When you have an emergency, want to buy something awesome, want to make some home improvements or want to pursue your business dream that everyone else thinks is crazy but you *know* is a winner. They've got your back. They want to help you find a lender from their network of lenders that want to lend to you.

They get it that sometimes you have a little too much month at the end of your money. You’ve got a mean caffeine habit and your fur babies need more and more

and more. The world can be a cold, cold place, but there are people who just want to help you when you need a helping hand. Namaste.

All you have to do is logon to www.LoanZees.com and click on a loan type; personal, car title, business or home equity. If you choose personal, then you'll need to fill out the online form. Input the amount you want from \$200-\$5000. Then input your name, address, Social Security Number and date of birth.

Next you will need to input your phone number, email and income information. Finally, you will need to input your bank account number and the routing number. This is used to deposit your loan and, in most cases, to debit the monthly payments that you will owe.

If you are approved for the loan, then the lender will contact you usually through email to inform you of the terms. If you like them, then you can choose the loan. If you don't like the terms, then you can do nothing and owe nothing.

Get your money from www.LoanZees.com. Dollar, dollar bill, y'all!
